

OVERLAND LHASA TO KATHMANDU

EX KATHMANDU

You will begin your tour in Lhasa **The Roof of the World.** Tibet is the highest plateau in the world with an average altitude in excess of 3500 meter. Lying to the north of the great Himalayan range which separates it from its neighbor's India, Nepal and Bhutan, Tibet is an untamed land of nomads (drokpas), monasteries, yaks, sand dunes, and high altitude desert. Still a remote frontier it offers some of the most breathtaking scenery and the highest Mountain Range on Earth.

We drive Friendship highway by Toyota Land cruiser 4 wheel drive passing through small Tibetan settlements, nomadic herdsmen wandering across the wide arid plains and awe-inspiring mountain peaks. The highlight of this trip is the visit to Everest Base Camp where you will be rewarded with spectacular views of Mount Everest's north face.

The native people of Tibet strike a dramatic contrast to the landscape with their colorfully woven clothes, bright faces, infectious smiles and resilient natures. Roads wind their way to overnight destinations of **Xegar**, **Shigatse** and **Gyatse** where the monasteries Tashilhumpu, Phalkor and Khumbum are visited. You will find yourself in an atmosphere created by religious art, Buddhist icons, burning butter lamps, incense smoke and resident monks. Castle fortresses, cobbled streets, open air markets and Tibetan fare also set the mood.

Along the plateaus awe inspiring mountain ranges make their breathtaking presence felt on the horizon, with a view of Everest,[known as Chomolongma by Tibetan's meaning "Goddess Mother of the Universe"] seen from Tingri and the sacred mountain of the Snow Lion. The road slowly climbs to where prayerflags and mani stone cairns adorn the high mountain passes and the dazzling Glacier of Mount Nozinkangsa [7,223m] on Karo La Pass [5,010m] looms unexpectedly around the bend. After a drive around Tibet's third largest holy lake [Yamdrok Tso], The Turquiose Lake, a panoramic view can be seen from atop the Kamba La Pass [4,794m].

After passing through the countryside of Tibet ascend to the border of Nepal and the Friendship bridge that links Nepal to China. As we go through the lengthy border process we then continue by vehicle to Kathmandu. The scene changes dramatically as the road zig zags through the deep cut, lush Gorges of the Bhote Koshi River passing by whitewashed villages of flat roofed, mud brick houses with their smoking juniper chimney's, rice and corn fields, picturesque mountains and a culture steeped in history and tradition.

04 **IN LHASA**

Today will be spent visiting several of Lhasa's many monasteries in the company of a guide and interpreter. One of these is the Sera Monastery, one of the best-preserved monasteries in Tibet. Within its whitewashed walls and golden roofs, several hundred monks live and study. After lunch we'll visit the Norbulingka, the summer palace of the Dalai Lama, as well as the Jokhang Temple. This temple is possibly the most sacred shrine in Tibet and there is always a procession of devout Tibetans through the complex. Surrounding the Jokhang is the Barkor - a maze of narrow cobbled streets that is the central market of Lhasa. (B)

05 **IN LHASA**

This morning we will visit the Potala Palace, which dominates the city of Lhasa. A spectacular building, it contains the private quarters of the Dalai Lama as well as numerous grand staterooms and many important chapels. There has been a palace on this site since the 5th or 6th century, but the present palace was constructed in the 17th century. A visit to the Drepung Monastery this afternoon will complete a truly awe- inspiring day. Founded in the 14th century, this monastery was once the largest in the world with a population of around 10,000 monks. These days that figure is down to several hundred, but there is still much here of interest as it was left relatively unscathed during the Cultural Revolution. This is a at leisure in which we are free to explore further, revisit a favourite monastery or simply sit in a café overlooking the Barkor and watch the pilgrims as they circumnambulate the Jokhang, stopping regularly to peruse the merchandise at the stalls lining the route. (B)

The Kumbum is a large gold-domed stupa and its many small chapels house an impressive array of Tibetan Buddhist murals. We then continue on to Shigatse, a short drive of only 90kms, arriving in time for lunch. Shigatse is the second largest city in Tibet and after exploring the local market we will make a detailed visit to the Tashilhunpo Monastery.
