FRENCH WAY: O CEBREIRO- SANTIAGO

The history of the ST JAMES WAY dates back to the early ninth century with the discovery of the tomb of St. James, evangelizer of Spain. The finding of this holy mausoleum is surrounded by a rich popular imagination instead of distorting been preserved and filled with colorful historical narrative. There are no accurate data on the circumstances of the discovery of the revered mausoleum; its discoverers saw this as a divine revelation of the establishment of the burial cult of Santiago in the place where it was found ...

Itinerary

DAY 1. ARRIVAL BY OWN ACCOUNT AND OVERNIGHT IN SARRIA *

DAY 2. SARRIA - PORTOMARÍN (22.4 KM):

The twenty-seventh journey is for a good part of the walkers the first, as Sarria is very close to the mythical and last 100 kilometers. The minimum distance to be traveled on foot to win the Compostela. The stage does not disappoint at all or the first time or the experienced pilgrim. It offers countless villages from the Sarria area, Paradela and Portomarin, good examples of Romanesque neighborhood paved tracks, trails and rural corridors, medieval bridges, rustic bridges ...

DAY 3. PORTOMARÍN - PALAS DE REI (25 KM):

The stage is fractionated by the Ligonde mountain, which in turn divides the basins of the rivers Miño and Ulloa and the Concellos of Portomarin and Monterroso. Although the beginning is promising and offer a relax climbing of Mount San Antonio, the rest are modest, provincial and even national roads. However they enliven the journey with good examples of Romanesque churches, including the possibility to stop in Vilar de Donas to visit San Salvador, ancient pilgrim hospitals and the valuable cruise of Lameiros.

DAY 4. PALAS DE REI - ARZUA (30 KM):

The French Route leaves Palas by the Campo dos Romeiros, traditional meeting place for pilgrims to enter the medieval village of Leboreiro. Among Leboreiro and Melide, crosses the Furelos village and its river through a medieval bridge into the urban area of Melide. From this point, the Camino passes through Boente and Castaneda to reach Arzúa, cheese villa. The Camino is presented in this docile stage and in very good condition, mixing earth and stone with small little road between villages, with mild climbs and descents alternating with flat sections.

DAY 5. ARZÚA - O PINO / AMENAL (19.1 KM):

Between Arzúa and the cathedral of Santiago there are nearly 40 kilometers and the most logical and prudent way to divide the section in two stages is stopping and inn in Santa Irene or in O Pedrouzo. The City Council of Arzúa gives the baton to O Pino in a comfortable way, with easier slopes and tracks always close to the N-547.

DAY 6. O PINO / AMENAL - SANTIAGO (22 KM):

We're almost at our goal. Walking becomes peaceful, maybe by fear of ending and not knowing or not wanting to do next. About tracks full of leaf, between the last patches of pine and eucalyptus trees, close together and symmetrical, in some areas, also some oak, reaching the last villages. Today's stage takes us first to the town of Lavacolla. Upon reaching the top, you pass by the airport and begin the gentle descent to Lavacolla. By Lavacolla passes a stream that the ancient pilgrims used to wash and purify themselves before reaching Santiago de Compostela. Lavacolla, as in the term of Santiago, is located close to the Monte do Gozo, a small hill from which pilgrims have first view of the Cathedral of Santiago. The Monte do Gozo, converted into the Xacobeo 93 in a area for pilgrims, has a large monument on its summit, the source and the chapel of San Marcos. From here, the journey is almost urban, coming to the Cathedral through the San Lazaro neighborhood, Rúa de San Pedro, Door of the Camino, Rua das Casas Reais and Plaza de Cervantes, loss and directly access to the cathedral through the Holy Door, or if no Holy Year for the Azabachería.

English Way

**FERROL - SANTIAGO DE COMPOSTELA
8 DAY CIRCUIT**

ENGLISH WAY

It was the preferred route for pilgrims from Scandinavia, the Netherlands, Northern France and above all, by the British and Irish pilgrims. Already in the eleventh century they have documentary evidence of landings on the Galician coast and arrival of pilgrims who arrived in shallow-draft vessels. In these expeditions traveled some Crusaders, who stopped in Santiago to visit the tomb of the Apostle before reaching Jerusalem. Many of them chose the English Way where were the protection

of monasteries and hospitals. The journey of pilgrims to the tomb of the Apostle started from the port of A Coruña or Ferrol. This route became the fifteenth century to the time of splendor this beautiful route, impressively rich historical and artistic heritage. Itinerary

DAY 1. ARRIVAL BY OWN ACCOUNT AND OVERNIGHT IN FERROL

DAY 2. FERROL - NEDA (14 KM):

As today the Compostelana church delivers the Compostela only to the pilgrims who have completed a minimum of 100 km to 200 km on foot or bicycle, most pilgrims take as a starting point Ferrol, since A Coruña is less than 100 km from the holy city. To start this beautiful but hard way, keep in mind that often lacks the traditional and vital signs with yellow arrows; curiously, if any, they will create insecurity of knowing which direction to take. Therefore, our most important advice is to follow one's intuition, always taking south. The first part of the English Way runs through an area with many roads and major facilities related to maritime and military industry. After these preliminary advice, and starting our way near the port of Ferrol das Curuxeiras we headed to the estate of A Gandara, enjoying in our route the military Church of San Francisco, the Arsenal or the Cathedral of San Xian. Walking alongside the Ferrol estuary we find the railway linking Ferrol and Betanzos is exceeded by an underpass. Then we climb to the monastery of San Martino of Xubia, which is one of the oldest in Galicia. We continue our way and after the bridge do Muíño on Xubia river entering Neda.

DAY 3. NEDA - MIÑO (26 KM):

After crossing Neda is our next point Fene, famous for its shipyards. From this village the route climbs through the forest to the edge of the road. Is a stretch that runs parallel to reach Cabanas, where we visit the Church of San Martino do Porto and Magdalena Beach. We will walk quietly along the waterfront and cross the bridge that leads and leaves us in the beautiful town of Pontedeume. From here we head to Bremao, Buina, Viadero and Bañobre. At this point we cross the medieval bridge over the river Baxoi and after a few minutes we reach the first buildings of Miño. The stage ends at Miño crossing the river Baxoi by a curious medieval bridge with a single eye. Day 4. redondela - pontevedra (18 km): We will leave Redondela by the chapel of Sorrows and the railway bridge, that will lead us through a wooded area to Setefontes and Arcade to cross the historical Ponte Sampaio on the waters of the river Verdugo. Continue to A Canicouva - by a former stone "empredrado"- way towards the city of Pontevedra and the Sanctuary of the Pilgrim, patron and symbol of the city.

DAY 4. MIÑO - BETANZOS (10 KM):

Regarding the landscape, this is the most interesting part of the way and that pass through a rural, mountainous and lonely territory, dotted with small villages dedicated to livestock. Leaving Miño by the Royal Street and enjoying a wonderful landscape seafront reaching Ponte de Porco and then to the beautiful church of St. Pantaleon of Viñas where we begin a steep and treacherous stretch that takes us to the town of Matacabalos and Souto later. Beyond this small stretch begins the descent towards Betanzos, with spacious panoramic of the estuary and marsh area that allow us to enjoy our way down to the beautiful Betanzos, which will access through a door preserved in the medieval wall, crossing the historical center to plaza Hermanos Garcia, where the Archive of the kingdom of Galicia is. We can also see the Sanctuary of Ntra. Sra. De Los Remedios along with one of the most beautiful stone crosses of Galicia.

DAY 5. BETANZOS - MESÓN DO VENTO (24 KM):

We will continue our route to the town of Betanzos by the Street O Rolo and the bridge of As Cascas. We will continue our journey through the places of O Coto, Campoeiro and Xanrozo, that goes then to the term of Abegondo. Once there, we will cross the bridge Limiñón; that after a pleasant walk along the river, and always following the front Presedo cross the bridge, where we can visit the Church of San Antonio de Cos. We will continue in the direction of Francos, Bocelo and Vilardel. Once arrived to A Malata, past Monte, Fontela and Vizoño, the route goes into the forest to the point where the two variants of English Road in the municipality of Mesía come together, to finally get to Mesón do Vento.

DAY 6. MESÓN DO VENTO - SANTA CRUZ DE MONTAOS (16 KM):

This last stage known as "The Fisheries Way" -to be used by fishermen in the area to transport their goods between the two Villas-, runs along tracks, woods and small roads, except for the descent to Muxia, held by dirt and stone. We leave Lires and go down to the river Castro, whose gateway except in times of drought is submerged, so the route has to be diverted to the village of Porcar, who rejoins the original path passing through Frixe with its beautiful church of Santa Leocadia. DAY 7. SANTA CRUZ DE MONTAOS - SANTIAGO DE COMPOSTELA (24 KM):

He arrive to Sionlla- from which we can already see Compostela. crossing the bridge over the river Tambre. The stage runs parallel to the river until Barciela, through the polygon of Tambre direction Meixonfrío and enters the town of Santiago by the Cruceiro da Coruña. Camino Primitivo (Original Way)
OVIEDO - SANTIAGO DE COMPOSTELA
16 DAY CIRCUIT

ORIGINAL WAY

It is known as the Primitive Way that has its origin in Oviedo and link to the French Road in Melide. The "primitive" name because this is the first road which have historical references; King Alfonso II of Asturias and his entourage out of Oviedo, in the ninth century, to visit the tomb of St. James, he discovered a few years ago.

Itinerary

DAY 1. ARRIVAL BY OWN ACCOUNT AND OVERNIGHT IN OVIEDO

DAY 2. OVIEDO - GRADO (28 KM):

Following the steps marked Alfonso II on their way to the tomb of St. James, the pilgrimage starts from the cathedral of San Salvador, and after leaving Oviedo thank to the bronze shells stards close to the ground, the road passes at St. Lazarus Panicles, Llampaxuga with its medieval hermitage. The first milestone reached by crossing Gallegos Bridge over the Nora River, from the thirteenth century. It's the entrance into the Las Regueiras council, first by road and then by a forest of chestnut and oak known as the Soldau Castañeu, climbs up Escamplero, where once there was a hospital for pilgrims. Exceeded the twelve kilometers of the stage, the route descends to Valsera and initiates an upgrade for asphalt to Premoño. In this village, left, is the Chapel of Santa Ana, the only visible trace of the ancient pilgrims. Paladin and its river Soto and Puerma will be the following cities and in the council of Las Regueras, witness the delivery of Grado. Now you can see the bed of Nalón river, the longest and mightiest river of Asturias. To get there we crossed L'Arache first. After crossing the bridge we reach the national 634 and continue along it

to the town of Peñaflor, preceded by his church of San Juan. Moscona city is within walking distance from the a pleasant path along the confluence of the river Cubia with the Nalón. Finally you enter Grado.

DAY 3. GRADO - SALAS (23 KM):

The second day, who slept in Grado, start the day with good ledges to San Juan de Villapañada and in the top of Fresno. After a refreshing break and views, once enviable and now overshadowed by the A-63, you go down to San Marcelo and The Doriga. From this point a path very slippery with rain, down to the road at the Casas del Puente. Then we will go to the next Cornellana, bathed by the Salmon River Narcea, and continues to its destination through flames, Quintana and Casazorrina.

DAY 4. SALAS - TINEO (22 KM):

The stage begins under the arch linking the palace Valdes Salas with the medieval tower. After leaving the town we get a smooth upgrade path barely punished, through the forest of oak and chestnut trees around us and the flow of the river under Nonaya path. By the known Camin de Misa and after crossing the national we enter Bodenaya. Just over a kilometer and a half separating the La espina, location where the N-634 says goodbye, which directes towards the Cantabrian. The layout of Original Way continues straight towards Tineo.

DAY 5. TINEO - POLA DE ALLANDE (31 KM):

In Tineo is the beginning of a succession of steep steps, where the landscape is still commendable and large valleys give way to a land of forests and mountains, Borres is undergoing a series of slopes to take on the left a path that travels parallel to a pine forest. Before entering Samblismo a marker shows the direction to another variant of this stage, the mountainous route ascending to the ruins of the hospital and down to Montefurado Fonfaraón. In our case we will choose the one that goes to Pola de Allande.

DAY 6. POLA DE ALLANDE - LA MESA (20 KM):

Palo port is a more accurate name for the hard obstacle to be overcome, however, it makes the day today in one of the most beautiful stages of the entire pilgrimage. We walk to the village of La Mesa. At the end of the day, transfer to Allande.

DAY 7. LA MESA - GRANDAS DE SALIME (18 KM):

At the beginning of the day we take you back to La Mesa, short stage characterized by the long descent that leads to the dam Grandas. This is the last stage in Asturias.

DAY 8. GRANDAS DE SALIME - A FONSAGRADA (28 KM):

At the beginning of the day we take you back to La Mesa, short stage characterized by the long descent that leads to the dam Grandas. This is the last stage in Asturias.

DAY 9. A FONSAGRADA - O CÁDAVO (26 KM):

Again, the itinerary is following the path of the LU-530. A right hand soon we will find the Fonte do Pastizal. The inner path is followed by a pine forest but, inevitably leads back to the road again to link with another path. The scattered patches of eucalyptus that joined us in the first two Asturian days again make an appearance today. The most interesting part of the day is the old hospital of Santiago de Montouto, from the fourteenth century and early twentieth still kept running. The desire to get to the final part, make the final stage endless but the end is still farway from our feet.

DAY 10. O CÁDAVO - LUGO (32 KM):

Unconsciously and seeking the safety of the big city, Cádavo Baleira is abandoned in a slight increase passing Vaqueriza Prairie and crown. A descend to a pine forest leads to the Sanctuary of Our Lady of Carmen, almost at the entrance of the town of Villabade. Here stands the Gothic church known as the Cathedral of Castroverde. Casas da Vina is the last town before the Lugo ancient spot, which is accessed through the neighborhood of A Chanca. We enter the walled enclosure under the door of San Pedro, next to which there is a stone where you can read: "This way the king Alfonso II the Chaste came in the ninth century, inaugurating the first road to Santiago".

DAY 11. LUGO - A PONTE FERREIRA (29 KM):

You leave behind the Roman wall of Lugo, you will walk until Ponte Ferreira; the itinerary goes from Lugo to San Roman, Guntin and Pacio, reaching Ponte Ferreira. In the center of the town and the French and the Original Way intersect. Traces of the history of the Camino passes through Melide; left a Pilgrim Hospital, from the year 1502, now a museum from Melide land. The Serra do Careón is the gateway to the Original Way in Melide land. The route of this road passes through the parishes of Vilouriz and Villamor, both rooted archaeological traces as forts, cruises and fragments of paved road within places where the natural landscape resembles to have stopped there o time. It will be in front of the old Pilgrims' Hospital, a Museum today, where the Original Way intersects with the French Road, in the Plaza del Convento, the most important place of the town and where the Obra Pia de Santo Antón is, which includes also the Chapel and the Town Hall.

DAY 13. MELIDE - ARZÚA (15 KM):

After Melide, the road passes through Boente and Castaneda then reach Arzúa, cheese villa. The Camino is presented in this docile stage and in very good condition, mixing earth and stone with small little road between villages, with mild climbs and descents alternating with flat sections.

DAY 14. ARZÚA - AMENAL (19 KM):

Between Arzúa and the cathedral of Santiago Medina nearly 40 kilometers and the most logical and prudent way to divide the section in two days doing stop and inn in Santa Irene or O Pedrouzo. DAY 15. AMENAL - SANTIAGO (19 KM):
